ALTRO

Altro have been at the forefront of innovation for almost 100 years. Today, working closely with architects, end customers, engineers, designers and contractors around the world, the insight and expertise help them transform everyday spaces into environments that can improve the wellbeing of everyone that uses them

With range of products that includes resilient safety floors, resin floors, transport floors, walls, subfloors, jointing, fixing and nosing. The products offered our the beating heart of the company and set standards for others to follow

A responsible family towards the environment and the future of our children, All Altro safety flooring, smooth vinyl and rubber flooring products comply with the requirements of ISO 14041:2004 and are declared E1 with regards to formaldehyde.

To work across multiple sectors requires real-world understanding: the ability to design for a purpose and address the challenges, issues and regulations for each industry, without ever compromising on quality or safety. Altro bring a wealth of insight into every project – experience that keeps Altro at the forefront of designed innovation – and a range of relevant products and unique solutions that not only help the customers realise their ambitions but have the potential to transform everyday spaces into something special.

A modern office interior with large windows, a red curved sofa, and several large, white, dome-shaped pendant lights hanging from the ceiling. The floor is a light-colored, textured material.

For 130 years, innovation, dedication to excellence, and a long-lasting commitment to **sustainability** have made Tarkett a global leader in cutting-edge **flooring solutions**, and sports surfaces for all market segments.

Commercial Carpet

Powerbond, Modular, Broadloom and Woven. A portfolio of carpet platforms that offer coordinated styles, extensive colorways and a variety of patterns and textures that enhance the appearance of any commercial environment.

Modular Carpet

Tandus Centiva modular carpet is proven to perform. With inventive patterns and an extensive offering of fresh color palettes, our modular carpet works in tandem with all other Tandus Centiva products. Available in tiles and planks in varying sizes, our modular carpet is available in three different performance types: ethos® Modular with Omni-Coat Technology™, ER3® Modular and Flex-Aire™ Cushion Modular.

Commercial Carpets

Desso Commercial Carpets is a global carpet and carpet tiles company delivering unique, innovative and functional carpet products and services to its commercial customers in the office, education and healthcare sectors. The products are installed worldwide in offices, banks, retail units, public buildings, schools, universities, care centres and more.

Inspired by its vision to '**make the floor work for your health and wellbeing**', Desso's carpets and carpet tiles have added functionality that contributes to people's health and wellbeing. The DESSO AirMaster[®] and SoundMaster[®] carpet tiles for example, have been designed to have a positive impact on people's health and wellbeing by improving indoor air and acoustical quality. These fast selling, innovative products are helping public and private organisations across the world increase workplace productivity, improve the learning atmosphere, reduce sickness absenteeism and enhance wellbeing.

HALBMOND
TEPPICHWERKE

QUALITY
MADE IN
GERMANY
SINCE 1880

For more than 130 years, the name Crescent has stood for quality from tradition. What began in 1880 with the founding of a weaving mill for Axminster carpets in Oelsnitz is today a powerful, innovative and international company. The course was set right at the beginning. Thus, the founders Koch and te Kock demonstrated great foresight and courage when they decided on the location in the idyllic and prosperous Vogtland. Even then, they knew about the power inherent in their clear commitment to their homeland and an internationally oriented drive for innovation. Nothing has changed to this day. And we are proud that this tradition continues to underpin our quality-conscious actions.

Allow us to give you a little insight into our philosophy, our corporate awareness and, of course, the diversity of our products and services. There are many different aspects that come together here. Each one of them is of great importance, but only in their complex work unfolds the high standard for which the half-moon carpet plants stand. Traditional values, rich experience. State-of-the-art technology, creative freedom. Social responsibility, cultural understanding. Sustainable quality, reliability and the ability to meet the most individual demands. For us, the quality seal "Made in Germany" is a duty and honor at the same time.

ANKER
PROFESSIONAL CARPET

TEXTILE FLOOR DESIGN SINCE 1854.

ANKER, a long-standing specialist in woven carpets with headquarters in Düren, North Rhine-Westphalia, has been committed to textile floor design since the company's founding. Thanks to collaborations with internationally renowned architects and interior designers, **ANKER** carpets can be found around the world in countless office buildings, hotels and numerous public buildings – but **ANKER** carpets are also used in aeroplanes and high-quality premium cars. Besides creativity, **ANKER** sets benchmarks industry-wide in terms of sustainability, innovation and a responsible approach to natural resources.

Founded in 1854 from Leopold Schoeller as a carpet manufactory, the family-run company is currently in its sixth generation. **ANKER** employs 330 people, and production is 100% Made in Germany.

ANKER carpets have won multiple internationally renowned design awards.

gruppofrancobruno

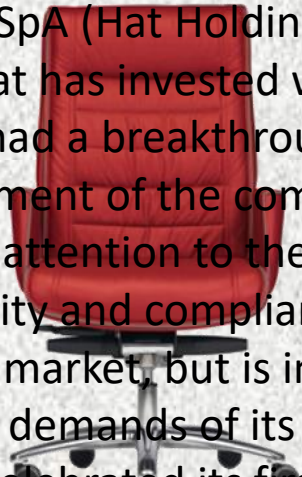

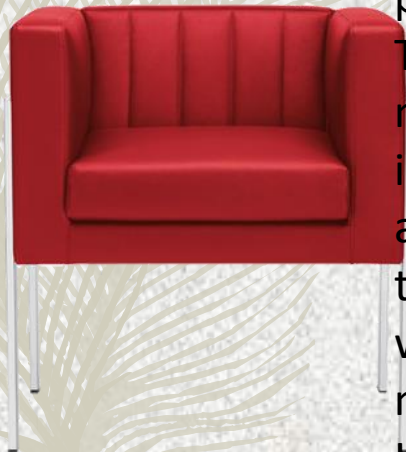

Company

Gruppo Franco Bruno represents an important production nucleus in the field of office furniture and steel storage system. The experience gained in the metal manufacturing has been completed during the years with the production of office furniture systems. Innovation, research, italian design and advanced technologies represent the heart of activities of a young and dynamic working group. Years of experience, continuous investments in technology and human resources and design aimed at satisfying completely the demands of modern work environments, make Gruppo Franco Bruno products the perfect synthesis between quality, reliability and functionality.

Luxy was established in 1976 as a small producer of chairs in outsourcing, in one of the most important productive areas of Europe, Italy's northeast. Luxy developed into a highly specialised company in the production of ergonomic and design chairs and sofas. Collaboration with designers like Massimiliano and Doriana Fuksas, Mario Ruiz, Favaretto & Partners, Itamar Harari and Stefano Getzel, along with the company's innate vocation for research, experimentation and innovation, accompanied by vast technological know-how and experience, led the company to patent products that were characterised by design and ergonomics that are the symbol of "Made in Italy" products, which are exported to over forty countries, through a network of professionals who are attentive to our customers' needs. With the entry into equity package of HAT Holding SpA (Hat Holding All Together www.hat.it) that has invested with all the company management, Luxy has had a breakthrough for a further incentive in the development of the company on markets always paying particular attention to the environment and to the regulations for security and compliance. The company is well rooted in the world market, but is in continuous movement to satisfy the demands of its clientele... this is Luxy. 1st June Luxy has celebrated its first forty years from the date of its foundation.

Benithem[®] is a global brand due to its dedication in incorporating quality hand-craftsmanship paired with modern technology and creating contemporary seating solutions for corporate offices or even home offices through our internationally certified products.

Established since 1999, Benithem[®] Sdn Bhd's team of designers, technicians and customer service personnel are committed to creating high quality, state-of-the-art designs that employ scientifically ergonomic principles in our conference, executives, managerial and task seating products. Creating QUALITY seating solutions is our focus, with an emphasis on mid to high-end project/contract office seating. Benithem[®] has expanded operations to its 120,000 square feet facility in Johor Bahru, Malaysia, and is well connected to major ports and airports of the region. Our experienced operations team manages an extensive sales distribution network in Malaysia, South East Asia and the Middle East, with future expansion plans.

We pride ourselves as an avant-garde design solutions company with a focus on office seating solutions with our very own manufacturing facility that produce designer chairs, executive office chairs, corporate lounges and other office furniture.

Our commitment is in finding the best fit between user, equipment and their environment by designing and producing ergonomic products that increase comfort and productivity of people across the world.

We are proud to be one of the pioneers in the Malaysian office furniture industry and have grown the company with a global outlook. Benithem[®] office chairs are certified by BIFMA Standard through established 3rd party certified bodies, e.g. TUV/ PSB and FIRA.

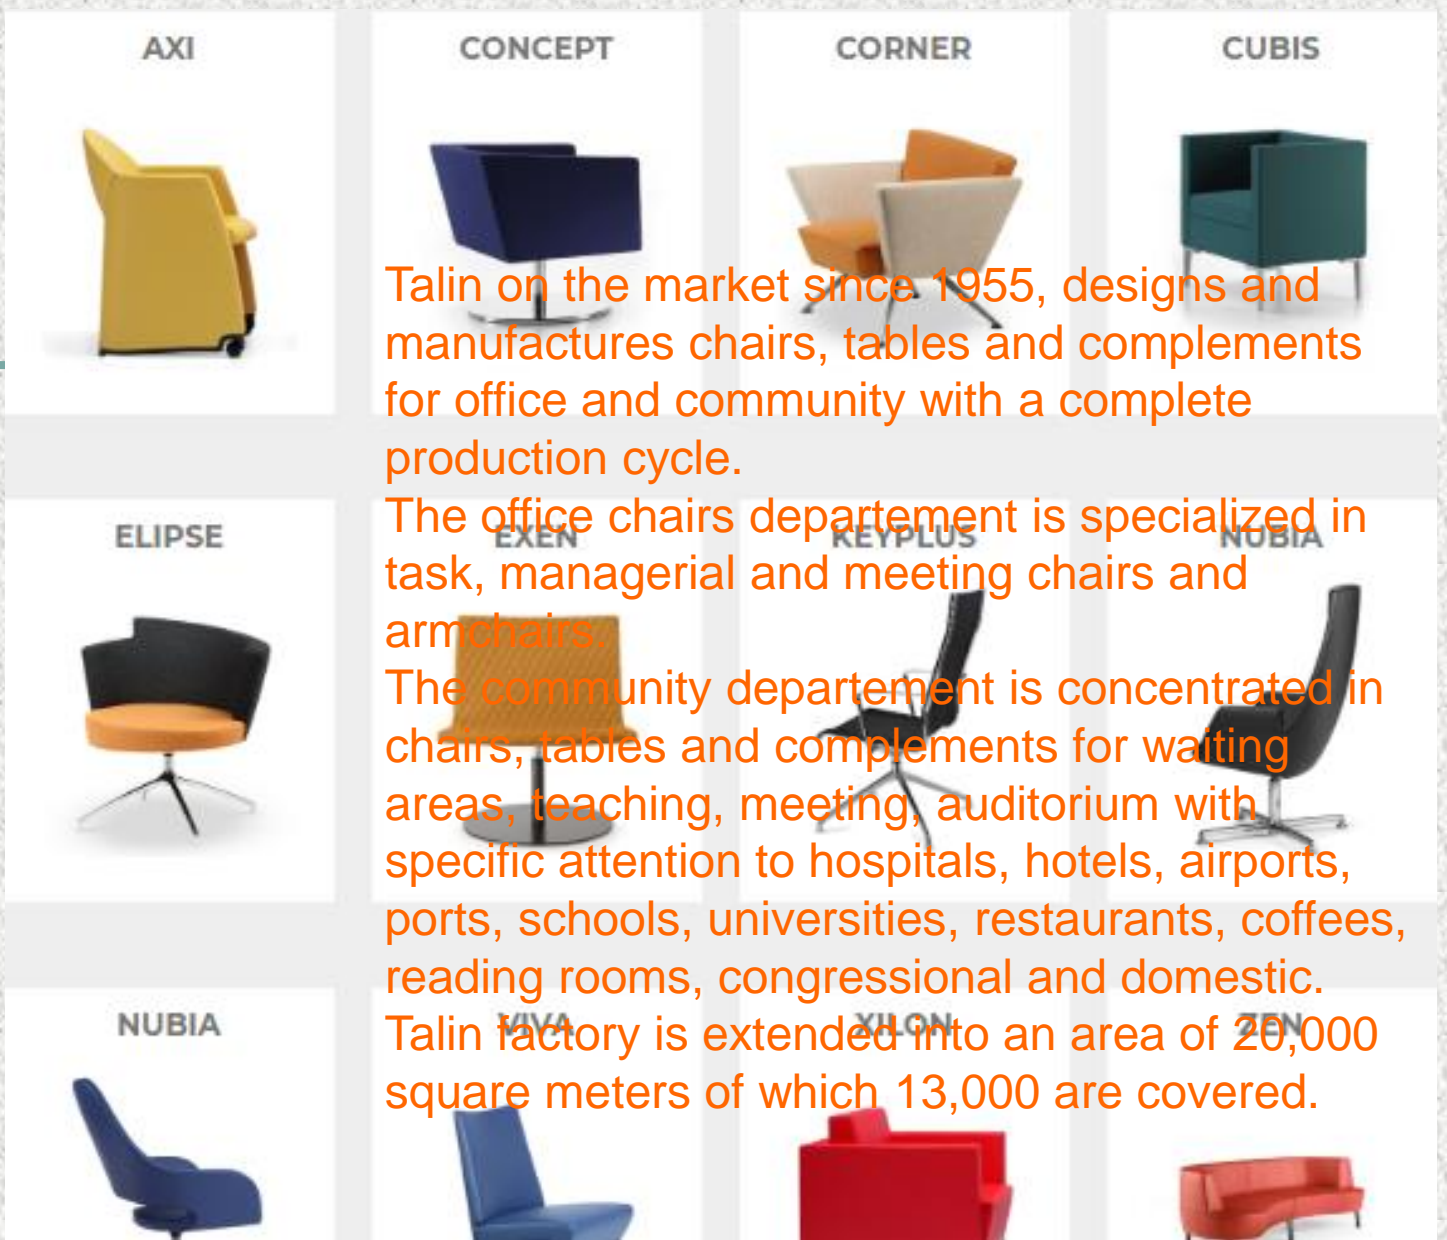

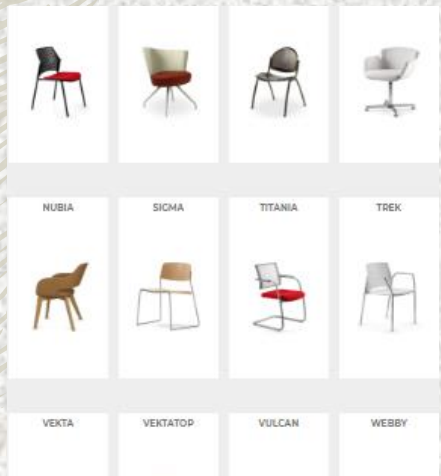

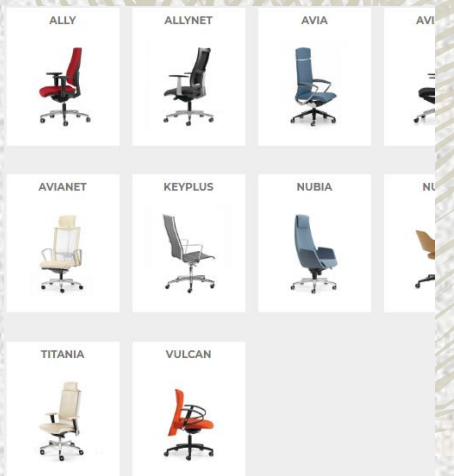

bristol

Bristol Group of Companies is a Malaysian company that create great places to work through its design concepts, products and services. Bristol is a brand that is associated with high quality and functionality, modern and innovative design.

Established in 1983, Bristol is one of Asia's leading and highly regarded furniture manufacturers in providing office furniture and seating.

Talin on the market since 1955, designs and manufactures chairs, tables and complements for office and community with a complete production cycle.

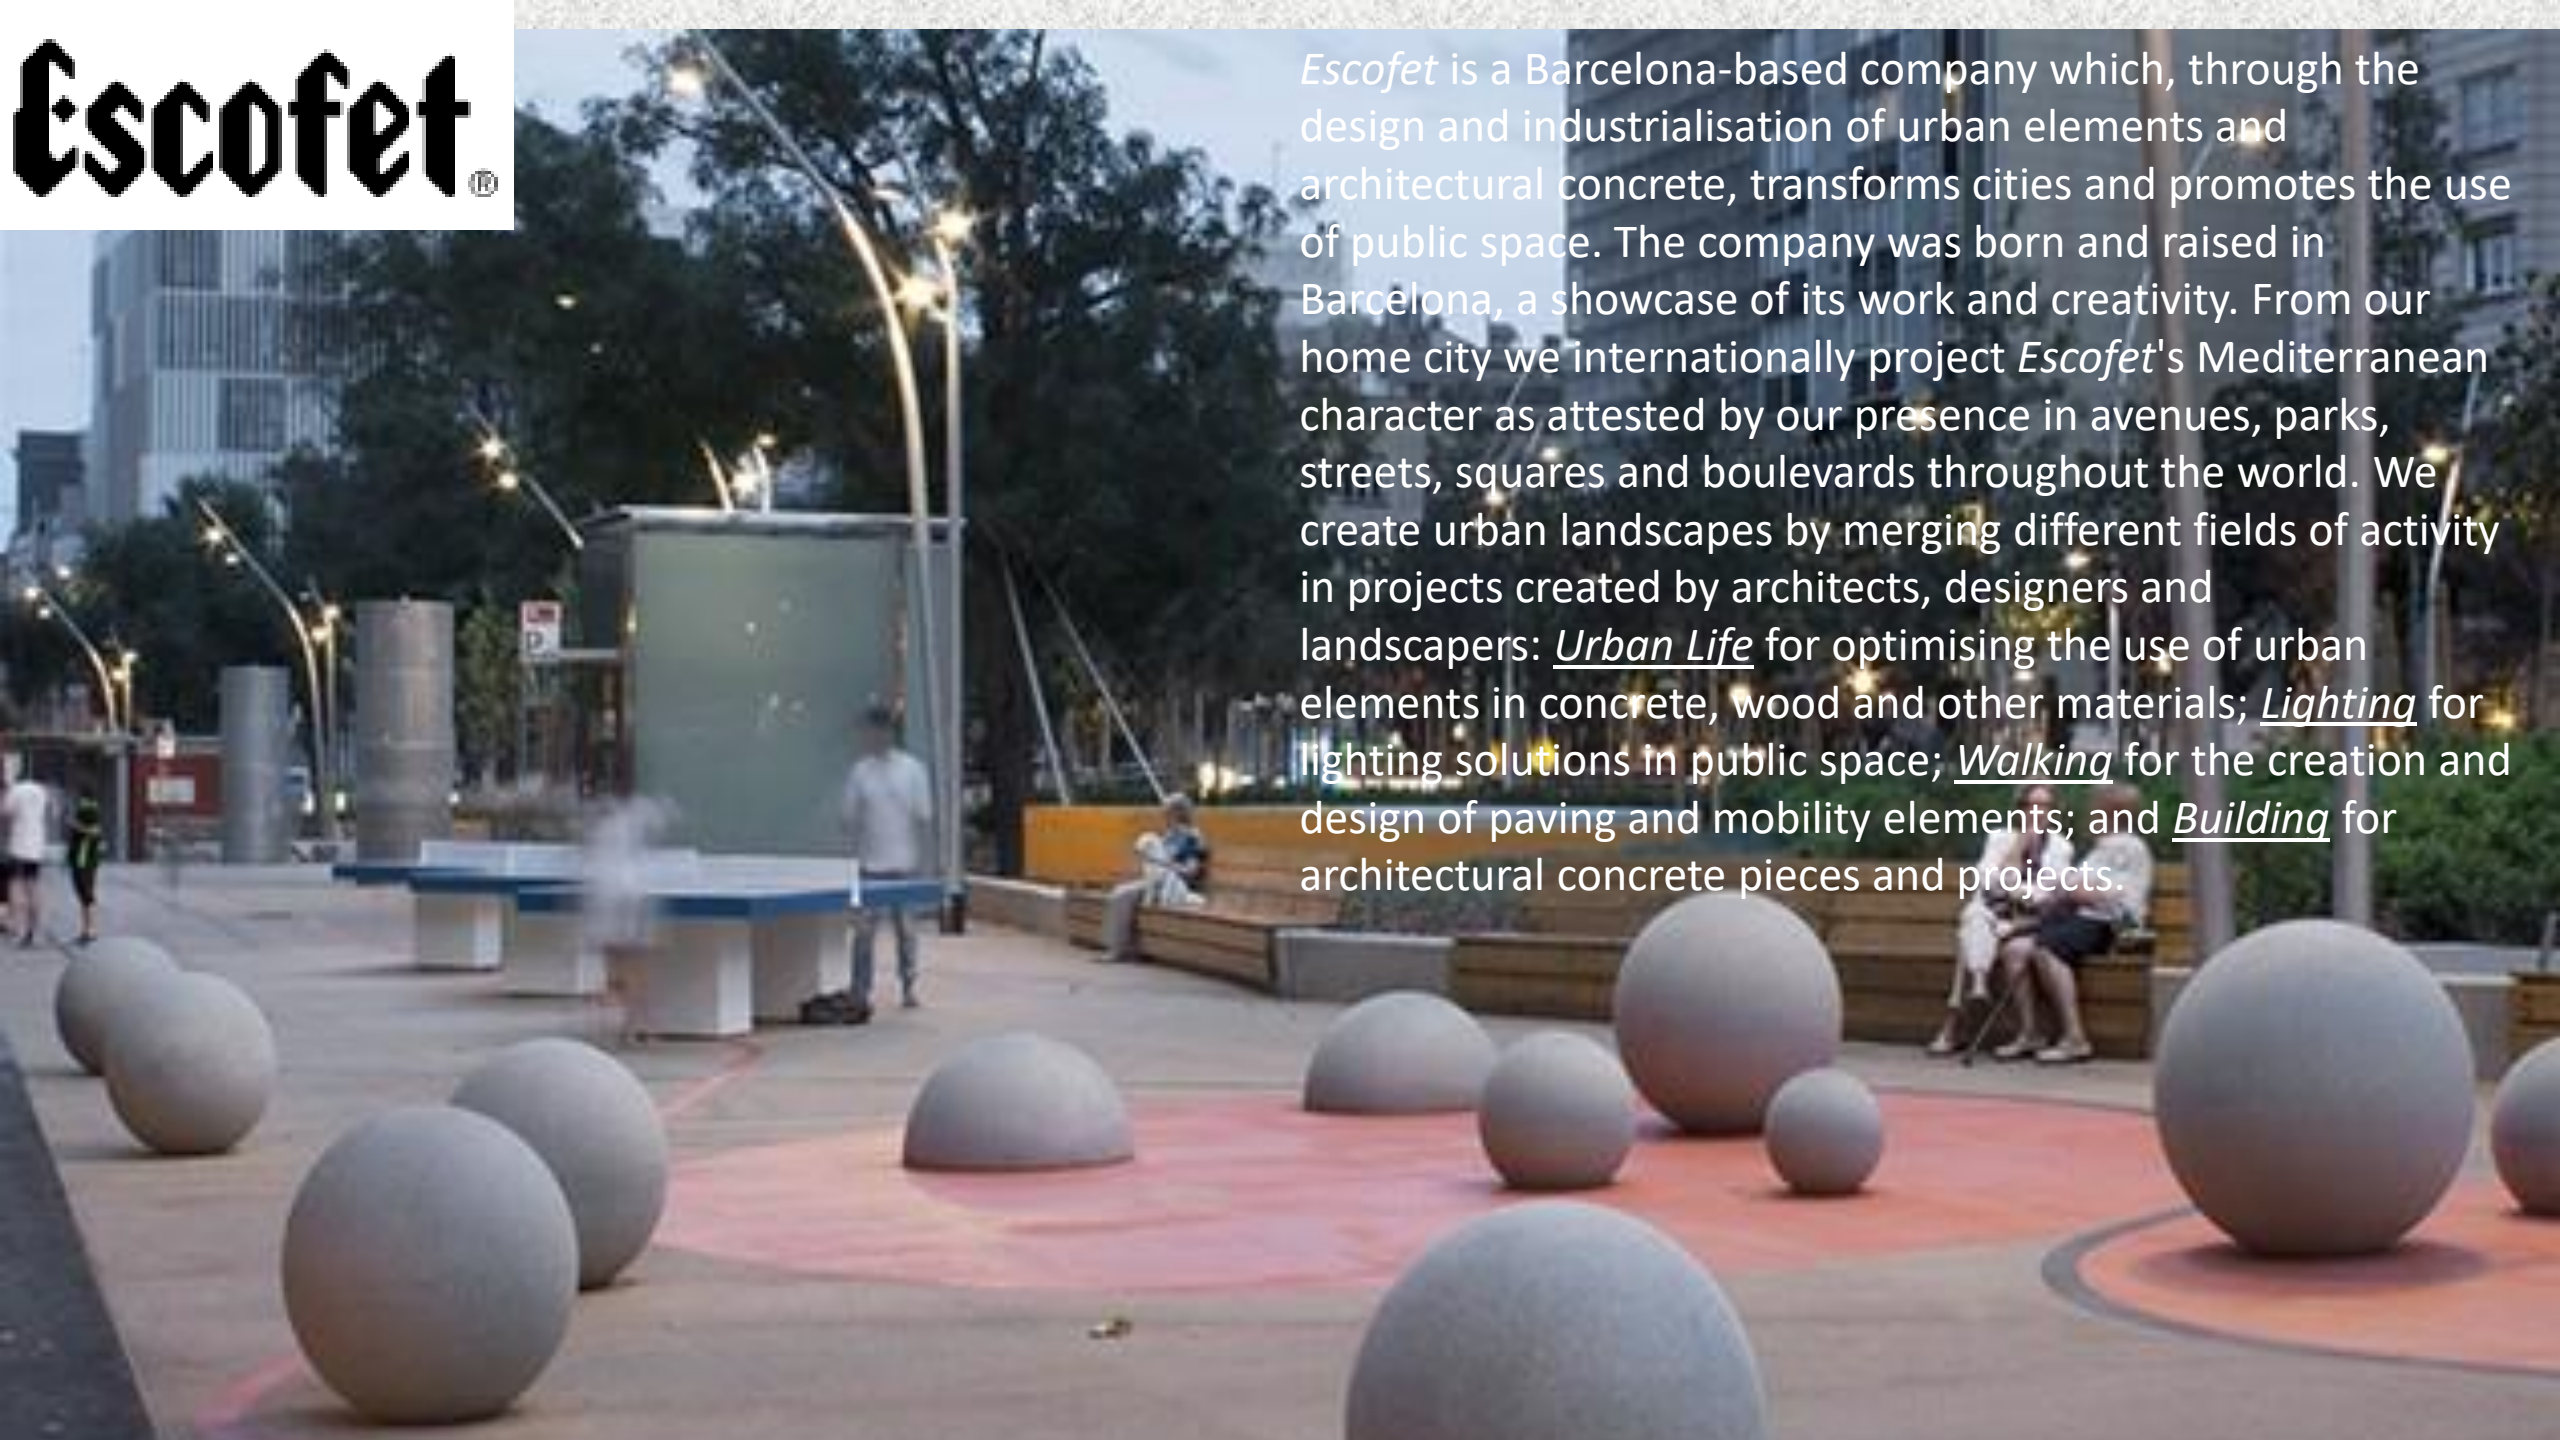

The office chairs department is specialized in task, managerial and meeting chairs and armchairs.

The community department is concentrated in chairs, tables and complements for waiting areas, teaching, meeting, auditorium with specific attention to hospitals, hotels, airports, ports, schools, universities, restaurants, coffees, reading rooms, congressional and domestic.

Talin factory is extended into an area of 20,000 square meters of which 13,000 are covered.

The logo for Escofet, featuring the word "Escofet" in a bold, black, stylized font with a registered trademark symbol (®) to the right. The background of the logo is white.

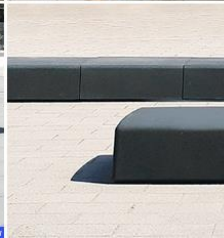

Escofet®

A photograph of an urban park at dusk. In the foreground, several large, smooth, grey concrete spheres are scattered on a paved area. A red-painted circular zone is visible on the ground. In the background, there are modern buildings, trees, and people sitting on a wooden bench. A person is standing near a table in the middle ground. The scene is illuminated by streetlights, creating a warm, ambient glow.

Escofet is a Barcelona-based company which, through the design and industrialisation of urban elements and architectural concrete, transforms cities and promotes the use of public space. The company was born and raised in Barcelona, a showcase of its work and creativity. From our home city we internationally project *Escofet's* Mediterranean character as attested by our presence in avenues, parks, streets, squares and boulevards throughout the world. We create urban landscapes by merging different fields of activity in projects created by architects, designers and landscapers: *Urban Life* for optimising the use of urban elements in concrete, wood and other materials; *Lighting* for lighting solutions in public space; *Walking* for the creation and design of paving and mobility elements; and *Building* for architectural concrete pieces and projects.

Smith System®

Back in 1905, Smith System was a different company than we are today. We built heaters for one-room schools. And the water fountains – and lavatory systems. It was a simple mission – keep kids warm, hydrated and clean, so they could focus on learning. But we soon discovered that, beyond those basic needs, there were other ways we could help. The more we worked for schools, the more we saw an ever-evolving environment that needed a furniture maker to nurture the change. So, we stepped in.

What's cool is that our original purpose never stopped guiding us. We still come to work every day to serve the “one-room schools.” Because in reality, every student learns a little differently, every teacher teaches a little differently and every classroom needs a unique solution.

We believe (with a heck of a lot of passion) that every student and teacher deserves the best possible space to inspire learning. And that's what led us to what we are today: A company designed to deliver on the needs of education better than anyone else in the industry.

What teachers do day in, day out, flat-out humbles us. And we believe the right tools have a seriously positive impact for them. For us, those tools are seats, desks, commons areas, storage units and anything else that inspires better learning. Flexibility, versatility, comfort, style. It all matters. Because at the end of the day, it supports one cause. To enable the genius inside every student.

Designed with Children in Mind!

It takes a special touch to design and build furniture for children. You have to know how kids think, how they explore, how they grow, and how they learn most successfully. At Jonti-Craft, we have that special touch – it's been a part of our heritage from the beginning, as you can see from our mission statement.

We deliver safe, feature-rich, superior-quality children's furniture for *a lifetime of learning*.®

We're an independent, family company, proud of our Midwestern roots and equally proud to say that nearly all of our products are made right here in the USA. With a talented group of Jonti-Craft designers, craftsmen and manufacturing, and logistics team members, we're building premium, handcrafted products for children...that last a lifetime.

Since 1979, Jonti-Craft has been the leading manufacturer of children's furniture. Our 3,500+ products contain premium features and are specifically made to withstand the rigors of use in high traffic, commercial environments such as classrooms, waiting areas, daycares and play rooms—as well as in residences. If you are considering purchasing children's furniture, you have come to the right place. Contact us today and we'll go right to work on earning your business and helping you find the right solution for your needs!

Caring Is Built into Every Product We Make. Our products are designed and manufactured to contribute to healthier indoor air quality and to support environmentally safe spaces for all. Our products meet several key industry certifications, including Consumer Products Safety Improvement Act (CPSIA), California Air Resource Board (CARB) II, and GREENGUARD Gold, which is designed specifically for environments with children. This underscores our commitment to delivering products that are air quality friendly and environmentally safe. **We Respect the Environment.** We choose suppliers that incorporate forestry management plans. We were the first manufacturer of early learning furniture to re-engineer our box-making systems to reduce cardboard waste. For us, recycling is an "inside job" – we recycle nearly 100% of our waste for our own or agricultural uses, and we even offer a product line crafted from 100% recycled materials. **We innovate through design and manufacturing.** Educators, parents, and most importantly, students tell us that our furniture "fits" the way children learn, play, think, and grow. We design with those needs as our priorities. **We deliver lasting quality that's guaranteed.** Our robust warranty is your assurance of lasting quality and value. Many of our products include a lifetime warranty—which saves you money year after year

JonTi-Craft

For learning, for a lifetime.

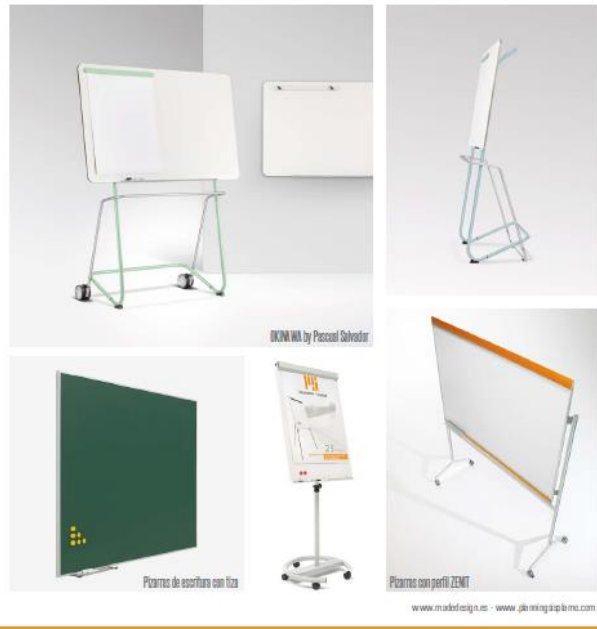

Our specialized STEM products make it convenient to engage every learner

Since 1947, Claridge has grown from a one-man operation started in a renovated cheese factory into one of the world's largest and most respected woman-owned makers of U.S. made visual display solutions. We were instrumental in guiding and influencing the collaborative process long before many of our competitors opened their doors. Today, some 70 years later, we have the privilege of serving and supporting a wide range of customers in specialties ranging from architectural design and construction, to business, K-12 education, healthcare, higher education, and more. Our complete line of writing surfaces, space creators and accessories help facilitate the effortless expression of inspired communication -- from the classroom to the boardroom and anywhere thinkers and problem solvers meet.

Nobody builds a better value than Wenger. Nobody puts more careful thought and effort into quality or more emphasis on durability, versatility and ease-of-use. Wenger understands how important it is to have products that last; products that provide flexibility with how you apply them; and products that transport easily and set up fast. We've learned this by listening to our customers – the driving force behind every product we build. In addition to Wenger's commitment to innovation is a tradition of outstanding customer service and support. Wenger stands behind each product with expert technical support, great warranties and customer service that's responsive, thorough and dedicated to your individual needs.

 Music Stands for Brass and Woodwinds A large music stand with a built-in instrument rest for brass and woodwind instruments	 Cymbal Stand Stands for cymbals and other percussion instruments	 Acoustic Shield To place in the back position of your music stand	 Stand Accessories Accessories for your music stand

Wenger offers products that can save you time, enhance your rehearsals and contribute to the success of every performance. While we started in the music practice room, today you'll find Wenger products in performance halls, theatres, gymnasiums, and outdoors. Wenger products can be found just about anywhere music and theatre is practiced and performed. And more recently, in the locker rooms and equipment storage facilities of high school, college and professional sports teams. It's hard to find a musician, teacher, actor, coach or athlete today – at any level – whose passion to teach and perform hasn't been touched by a Wenger product.

Our Philosophy

- We will continue to seek out reputed brands designed and manufactured to meet URBAN SPACE high Standards of value and Quality.
- Our organization is built on the pillars of honesty, Integrity, Creativity, Innovation and diversity.
- Introduce to our wide customers the latest additions, Trends and value offering through various communication channels.
- We are a continuously learning organization with customer oriented approach and consistent quest for quality. We value our human resources and are committed to impart Continuous training for skill up-gradation
- Offer the best standards in service to meet the changing customer needs

Our Maintenance & Guarantee to you

- We offer only branded products which is an inherent guarantee. All of the ranges meet ISO standards of manufacturing
- Our highly trained installation team ensures the products are delivered and installed to your complete satisfaction
- URBAN SPACE views customers complaints seriously and our Customer Service Department ensures complaints are attended immediately and avoided in future.
- Our limited liability to manufacturing defects entitles you to free repairs/replacements on a case-to-case basis
- “Our aim to strive for Quality and Service in all we sell and all what we do”

Customer Service

- We are here to help you and offer the best Customer Service as per the industry standards
- Help and advice on any of our products and service
- A total solution whether for the carpets, office, & school furniture
- Specialist advice on Made to Order and Design
- Products and Services
- Information on the progress of your order
- Free delivery & installation within UAE
